EDUCATION

Higher School of Economics — 2021 - 2025
BSc Applied Mathematics and Informatics: GPA 7.12/10
Specialization: **Machine Learning**

Lyceum of the Higher School of Economics Moscow Top-3 school — 2019 - 2021
Specialization: **Computer Science, Engineering and Mathematics**
GPA 4.85/5.00

Moscow School of Programmers — 2019 - 2021

WORK EXPERIENCE

Yandex.Eats, Yango Deli backend development team intern — June - September 2023

- Industrial experience with C++, PostgreSQL, OpenAPI
- Full development of a microservice from scratch

EDUCATIONAL PRACTICE

HSE Laboratory on AI for Computational Biology intern researcher — October 2023 - Present

- Project work on the topic "Deep Learning for peptide retention time prediction"
- Data Analysis. matplotlib, seaborn visualization
- AutoRT, DeepLC tools

Tinkoff RecSys course — January 2024 - Present

HSE FCS "Mathematical statistics" assistant — January 2024 - Present

Yandex School of Data Analysis - Python course — September - December 2023

- VM - Python interpreter on python

HSE FCS "Probability theory" assistant — September - December 2023

HSE International Laboratory of Theoretical Computer Science intern researcher — April - June 2023

- Game theory
- Game algorithm research, website development
- Project work on the topic "Games with a sophisticated queue - Go-moku"

HSE Lyceum "VII School of Physics and Programming MI 2022" assistant — July 2023

SKILLS

Programming Languages	Python3, C++, C, SQL, LaTeX
Programming Technologies	Jupyter, Bash, PostgreSQL, Git, Wandb
Programming Libraries	Pandas, NumPy, Torch, Tensorflow, tqdm, sklearn
ML knowledge	basics of DL, RNN, NLP
